

ACHIEVE THE FUTURE.
PLAN TODAY.

At Hereva, we believe the best projects are successful because of unwavering leadership, proactive communication, team engagement and diligence in execution.

OUR STORY

Hereva Consultants was founded in 2014 inspired by a commitment to bringing a strategic project management approach to businesses undertaking new or expanded commercial real estate initiatives.

The unique entrepreneurial spirits of Boston, Cambridge, San Diego, and London, are the perfect fit with Hereva's philosophy and work style. We provide the dynamic leadership, technical knowledge, experience and services you need to create the ideal facility in which to meet your business goals.

As an owner-operated firm, Hereva gives clients direct access to our leadership throughout the process. We operate under the beliefs that our clients' goals are our goals:

- bringing efficiencies and best practices help make the best use of a client's time, money and resources
- providing a thoughtful, detailed planning process is essential to achieving project goals
- engaging the customer, client and key stakeholders throughout the process is instrumental to exceeding expectations

The Hereva team has a strong track record of addressing and managing the financial, technical and logistical challenges that accompany design and construction projects. Focused on accountability every step of the way, Hereva keeps clients' interests at the forefront of every interaction.

Hereva can help you at any stage of project delivery. Our skills and expertise support projects from planning through execution, ensuring your needs are met on time and on budget.

OUR PROCESS

WHY **HEREVA**

Hereva works with a variety of clients to provide a comprehensive range of design and construction planning and project management services. We work closely with our clients from the conceptual and strategic planning phase of a project and team development through project completion to ensure their project and service needs are met.

The Hereva team brings professional expertise and a wealth of experience to all project types including:

- New design and construction
- Fit-up and renovation
- Facility expansion
- Projects within occupied space
- Infrastructure modifications
- Life sciences, biotechnology and GMP

Hereva's consulting services include:

- Property and construction feasibility assessment
- Scheduling and cost estimating
- Programming and design team procurement
- Construction team selection and buyout
- Project delivery, handover and operational commencement
- Master planning, procurement or process support
