

Linh Nguyen, Project Manager

Linh is a dynamic team leader with a strong background in Project Management. Having a thorough understanding of lab operational requirements, Linh has managed the coordination of build outs and renovations through the entire life cycle of R&D Lab projects.

Her outgoing and friendly manner makes her very approachable which encourages communication as well as fostering coordination between cross functional stakeholders. Supporting master planning and space planning initiatives, she has led teams in logistics and project schedules, provided construction administration coordination, construction punch-lists, and occupancy phasing schedules. Linh is also experienced in document control and document migration across various platforms.

Email: lnguyen@hereva.com
